## **Retractable Blackout, Shade and Insect Screen**

*Windows, covered balconies, verandahs and pergolas can provide fresh air, enjoyable views and outdoor spaces for entertainment and relaxation. But the potential of these areas are not often realised, as they become unusable when combined with harsh sun, constant breezes and flies and mosquitoes.*

.....

The Issey Flyloc provides the ultimate in external shading whilst doubling as a barrier against insects. An innovative reinvention of the common fixed flyscreen, this retractable system comes in a large range of designer colours and acts as a windbreak! The fabric is locked inside the specially designed track which prevents the entry of unwanted insects or light into the area.

# issey flyloc

Our contemporary range of vertical screens is designed to give maximum protection to windows, doors, balconies and verandahs. The range of headbox sizes and the choice of guide systems allows for use over multiple applications such as:

- |                       |                    |
|-----------------------|--------------------|
| Windows & Doors       | Presentation Rooms |
| Balconies & Verandahs | Bedrooms           |
| Cafes & Restaurants   | Surgeries          |
| Home Theatres         |                    |

## Fabric

- A wide choice of fabric is available to suit your unique situation.
- Screen 86% / 90% / 92% / 93% - When you have a beautiful view, selecting Screen fabric will ensure the majority of heat, glare & UV is prevented while the view is maintained
  - Blackout (for internal application only) - The Blackout fabrics have a 3-layer sandwich that is UV resistant, fire resistant and anti-static, blocking 100% of the light.

## Flyloc Guides

Variety of tracks to suit application

## Bottom Slat

Weighted Rectangular Tube 40 (h) x 20 (d) or 50 (h) x 20 (d)

## Operation

The ability to retract the blinds gives you the power to control when and how much shade is required:

- Manual Crank - Removable external crank with handle attached to eye
- Motorised - Somfy tubular motors that are hard wired to a switch or operated via remote control
- BMS - Easily integrates with Building Management Systems for convenient and versatile control

## Framework

Aluminium frames  
Galvanised fabric tube

## Fasteners

Stainless steel Bolts, Nuts and Screws

## Frame Finish

Powder Coating (All Standard Dulux and Interpon colours)  
Anodising (All Standard Colours) Extrusions only

## Installation Methods

Each situation is unique and requires different methods of installation. Issey's own installers will create the most suitable method for your application.

## Headbox Sizes & Size Limits

Protective slimline headbox that blends with any application

Please contact issey to discuss your needs further or to arrange a measure and quote.
